## OBJECTIVE:

A mobile developer with 3+ years of experience building real-world applications across logistics, parking systems, and HR platforms. Passionate about solving user problems through scalable and well-structured solutions, and eager to grow in innovation, user experience, and the Apple ecosystem.

## SKILLS:

Strong in building scalable mobile applications using Flutter, Kotlin, and Swift, with a focus on clean architecture, performance optimization, and maintainable code. Experienced in state management (Cubit/Bloc) and REST API integration, with a continuous drive to improve user experience and application quality.

## VOLUNTEER EXPERIENCE OR LEADERSHIP:

Collaborated with cross-functional teams in multiple projects, contributing to feature development and system improvements. Took ownership of key features, ensuring timely delivery and maintainability, while adapting quickly to new technologies and project requirements.

## EXPERIENCE:

### MOBILE DEVELOPER | 2025 - PRESENT

#### Nusapala Berkah Autonomous

- Developed and maintained Gudangku Apps (User & Driver) to improve logistics efficiency and streamline operational workflows
- Built MyNusapala parking membership application with a scalable architecture, ensuring maintainability and long-term growth
- Developed NATA HR (HRIS application) to support and simplify employee management processes
- Applied clean architecture and state management (Cubit) to improve code maintainability and scalability across projects
- Integrated REST APIs and optimized application performance to enhance overall user experience

### ANDROID DEVELOPER | 2022 - 2023

#### Zapkad Company

- Maintained and enhanced Business Card application to improve usability and overall user experience
- Implemented new features that improved application performance and responsiveness
- Managed application release cycles and successfully deployed updates to the Google Play Store

### ANDROID DEVELOPER | 2021 - 2022

#### Softorb Technology

- Developed a Smartcard Reader library to support internal development efficiency
- Contributed to the development of the myGrapari Telkomsel application, improving feature delivery within the team

## EDUCATION:

### UDAYANA UNIVERSITY | 2017 - 2021

Bachelor of Computer Science

GPA: 3.76

Research : Expert System Diagnosis of Swine Disease Using C4.5 Algorithm and Certainty Factor Method
